## Instructions for Using NaviWay Private Markers

---

### 1. What are Private Markers?

NaviWay Private Markers are special codes you can use, for example, in your own home. They help organize your space and allow you to adapt your surroundings to your needs.

#### Key features:

- Private markers work regardless of the location where they are scanned.
  - You can edit their name and description in the NaviWay app.
  - All information is stored only on your phone.
- 

### 2. How to Download and Prepare the Markers?

 [Download NaviWay Private Markers](#)

#### Preparation steps:

1. Download the PDF file.
2. Print the markers on A4 paper.
3. Cut them out along the marked lines.
4. For increased durability, laminate them with a matte laminate before cutting.

If you encounter any issues, contact us:  [hello@naviway.app](mailto:hello@naviway.app)

---

### 3. How to Use Private Markers?

You can customize private markers in the NaviWay app:

1. Open the NaviWay app.
2. Scan your NaviWay marker.
3. Go to details, select “Edit”, and give it your own name and description.
4. Save the changes.
5. If needed, use “Edit” again from the marker details screen.

♦ **Important:** All data is stored only on your device – your information remains private and secure.
